Introducing your speakers

Karen French - Sacred Geometry: It's Significance And Potential Within Your Reality

Without Geometry, there would be no time, no space, and no possibility of your existence. Your thoughts, actions, and creativity rely on Geometry. Learn about the meaning and purpose of five essential, yet simple, Geometric Shapes that are fundamental to the construction of reality, and a Universal Model called the 'Gateway to the Heavens'. Hear why they have been used down the Centuries, as potent symbols and powerful tools in all cultures, particularly when used with a Sacred Intent. Sacred Geometry is evident in every discipline, and can be used in a wide variety of ways, in everything you do, including Healing and Dowsing. We will be doing a few very simple exercises to really appreciate the dynamics and the significance of these shapes.

Angela Delglyn - Questions are the Answers

- writing a working plan for maintaining your own health

"Dowsing for your health doesn't have to be about guess work; it can and should take on a more systematic approach. Having a foundation model built on key factors is essential if you're to find what you're looking for. There are several dimensions to such a model, and you can go deeper, but I aim to provide a simple structure that anyone can utilise as they work towards finding their own balance"

Alessandro Ferullo - Qi Gong For Health

QiGong (Chi Kung) is the ancient Art of Energy Work via exercise, which has been keeping the Chinese Nation healthy for Millennia. Hua Gong is a 1000 year old Chinese form, which Wimbledon based Alessandro, who has 20 years of experience, will be teaching us. He will give delegates a brief introduction to Hua Gong, and the benefits and ways of re-balancing and re-charging our Energy, and learn how to sense the energy in our body and around us. Then he will invite everyone to get up on their feet, to join in one of the most widely practiced health Hua Gong sets. This set utilises correct breathing, to regulate the flow of energy, to promote excellent health. The Session will end with a short question and answer opportunity, if time permits. This is an audience participation Workshop, so come along and enjoy!

Avril Holland – The Legalities Of Running A Complementary Therapy Practice

With over 25 years of experience, as a Therapist and holder of a Masters Degree in Medical Law and Ethics, Avril will be exploring issues around Consent, Treating Minors, Records, Reports, Record Keeping, and Data Protection. Avril will be facilitating a discussion about the Legal aspects of running any Complementary Therapy Practice.

This is a very important subject for us all, and some of you may have come across some Legal problems, whilst setting up your Therapy Practice. To help you, Avril has offered to answer questions on your own problems, or concerns. If you would like to take this wonderful opportunity, please email her the details, by the Sunday 1st October 2017, to avril.holland@gmail.com
